

Overview

In Adobe® InDesign® CC Beginners, you were introduced to the many features that help you create professional looking documents. Now you need to create much lengthier interactive documents that need to be accessed across a range of devices. In Adobe® InDesign® CC Advanced, you will learn advanced InDesign techniques to enhance the look and functionality of your documents.

Using Adobe InDesign, you can create interactive documents and export them for viewing in a web browser with various features such as buttons, page transitions, movies and audio files, hyperlinks, and animation. You have the ability to assign colour profiles and establish print pre-sets. In creating longer documents, you'll be able to include such features as a table of contents, footnotes, cross-references, and an index.

This course covers the Print & Digital Media Publication Using Adobe InDesign CC objectives to help students prepare for the Adobe Certified Associate (ACA) exam. This course is also designed to cover the Adobe Certified Expert (ACE) exam objectives.

Upon successful completion of this course, you will be able to use Adobe InDesign CC to create and deliver professional looking printed and interactive documents.

You will:

- Prepare documents for multiple formats.
- Manage advanced page layouts.
- Manage styles.
- Build complex paths.
- Manage external files and create dynamic documents.
- Manage long documents.
- Publish InDesign files for other formats and customize print settings.

Duration

2 Days (08:30 - 16:00)

Audience Profile

This course is intended for students who want to expand their entry-level knowledge of Adobe InDesign by using advanced features and collaboration tools

Pre-requisites

Adobe InDesign for Beginners course or equivalent knowledge.

Course Outline

Module 1: Preparing Documents for Multiple Formats

- Build Layout Versions
- Link Content

Module 2: Managing Advanced Page Elements

- Create Repeating Content
- Change Text Layouts
